application of wood.

Global market presence and
unmatched industry expertise.

COMPLETE SOLUTION FOR WOOD CARE

- ★ Starting with repair and prepare - Wood Filler, Wood Stainers and Dedicated range of Sealers and Thinners.
- ★ Under TARALAC, we provide the complete range of products, that provide elegant beauty and expert protection when used together.
- ★ The range gets completed with excellent Topcoat Finishes - Synthetic Enamel | NC Paints | NC Lacquer | PU 1K (Silkwood) Melamine | PU Wood Coat (2K) | Water base wood coating and Nature Coat.

TARALAC Range of PU Topcoats and Sealers are specially designed with Dual coat Systems to provide dual layer protection

- > The sealer layer seeps into the wood and strengthens the inside
- > The Topcoat forms a tough coating on the outside to protect from all conditions.

TARALAC WOOD RANGE

Wood is a versatile material used in various types of applications, be it exterior or interior and under varying degrees of exposure to the environment and wear & tear. Under **TARALAC**, we offer an array of technologies to suit such diverse range of wood care needs, depending on the exposure and use of the wood.
